Dance 4 You Magazine

Playing original Salsa and energetic Merengue music, and for the first time live in the UK – Bachata too, Merengada transport their audiences to the dance-halls of Cuba and the Caribbean.

Salsa originates in Latin America, and crazy Carnival-style Merengue and more lyrical Bachata (reminiscent of African shores) come from the

Dominican Republic; the resulting heady cocktail is an authentic pot-pourri of lively dance music, complete with singers, fiery brass, storming percussion and slick choreography.

Come and see why they regularly amaze thousands of European festival-goers!!
